Unfortunately getting Punk'd is a reality for millions of Americans, and some Canadians. Hello, I am Ingrid Marie Boring CEO of Punk'd Prevention Incorporated. Here at PPI we believe no one should have to go through the horror and humiliation of getting Punk'd. That is why we have developed a system that will dramatically decrease your chances of getting Punk'd. Our research has shown that there are three full proof methods to deflect an Ashton Attack. It is a well known fact that Mr. Kutcher enjoys the company of middle aged women.

As the simulation shows this method is extremely effective. We now offer the Cougar Caller, to bring middle aged women to your rescue.

Besides the hit MTV show Punk'd, Ashton Kutcher also starred in the very popular film The Butterfly Effect. In this movie, Mr.Kutcher's character is sent back into the past by his childhood to redo his life. This is another sure-fire way to not get Punk'd.
